SPRATT'S LIGHTNING RODS!

WITH branched and after poits made a pare copper and gilded with fine gold, of which are warranted to preserve the extremity sharp and bright. Fight times as good a conductor as a spurious initation made of C. Iron, and sold last year by some dealers a Lightning Rods.

Also, Fixtures for a new and valuable improment in upplying Insulators by which the ghalis kept dry, caust in no leaks in roofs of hailings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seen.

The blowing recummendations have being furnished gratationally.

drives into the seen.

The following recommendations have being formished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Condenses on the plan of Spratt, of Cincinanti, supernr to be reer well vised, and in point of nechanical construction are the best I have ever scene.

It is to be hoped that the use of these remains become general as an important auxiliar defente against a dauger which inust be regard as of no ordinary magnitude, to which buildings are liable.

PATENTS.

AMERICAN AND FOREIGN OFFICE.

WITH THE U.S. PATENT OFFICEA
WASHINGTON,

RO. 76 STATE, OFFOSTER KLEIST., ROSTON.
MPORTANT INFORMATION TO INI VENTORS. The Subscriber (late Agent of
the U.S. Patent Office, under the Act of 1827)
determined to present advantages, in upplying
for patents, superior to those offered inventors
by others, bas made arrangements whereby on
applications prepared and conducted by him,
THIRTY POLLARS (instead of turnity, as
peald back by others,) will be remitted by him in in
case of failure to obtain a patent, and the withdrawal through him within thirty days after the
rejection. Caveats, Specifications, Assignments,
and all necessary policis and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and elemific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can
avail themselves of the experience of 20 years'
practice, an extensive library of legal and macchanical works, and correct accounts of patents
granted in this und other countries; hesides being asved a journey to Washington, the neunl
agrent delay there, as well as all personal trouble
great delay there, as well as all personal trouble
and patentfurnished by remitting one dollar, g.

Assignments recorded at Washington,
R. H. EDDY, (

Solicitor of Patents,
R. H. Eddy, Esq., of Rostion did businessa the Patent Office, as Solicitor
of Patents. There were few, il any, persons acting in this capacity, who had so much business
before the Patent Office, and there were none
who conducted it with more skill, fadelty and succeass. I regard Mr. Eddy as one of the legal, informed and most skillnit Patent, Solicitors in the
United States; and have no hearitation in wissiring
inventors that they cannot employ a person more
competent and trustwortly, and more capable of
patents of any other agan.

EDMUND BURKE,

Patent Office,**

Commissioner of Patents.

**Patent

The Regulator is bishly resummented.

The Regulator is small, simple, sasily applied; when once adjusted, requires no further attention. The disagresable affect of Gas upon the complexion is almost entirely obviated by the mee of the Regulator. The light being more agreeable to color and less injurious to the eye. The unbraithy consequences resulting from the escape of unconsumed gas are also remedied, besides a great saving is effected by its are, not only from the intense pressure from the street, intended when part of the lights in the room are oxthaguished, the pressure meessarily norceasing our those still burning, as that a large portion of the gas uscaping unburned, and is of course wasted.

The Gas Regulator is highly resummended.

red.
The Gas Regulator is highly resonantended by the gress at large. For sale in sizes suita-and private awenings.

Whig Nominations.

For Governor. WILLIAM W. HOPPIN, of Providence. For Lient, Governor, JOHN J. REYNOLDS, of North Kingstown. For Secretrry of State, WILLIAM R. WATSON. of Providence. For Attorney General, CHRISTOPHER ROBINSON, of Cumberland.; For General Treasurer, SAMUEL B. VERNON, of Newport.

IMPORTANT.

We are indebted to Mr. W. F. Kenney, the Telegraphic operator, for the following important dispatch :

Beston, March 15. The steamer Africa has arrived at Haljfar ; left Liverpool on her regular day, 3d instant, consequently she brings 4 days later news than the Pacific. The news is of the most important and striking character; the Emperor of Russia is dead. He expired auddenly at 1 o'clock, on the morning of Friday, 2d inst., and the event had created the greatest excitement. No deiniis have been received, but there can be ne doubt of the fact, as it was announced to the House of Lords on Friday night, by Lord Clarendon, and in the Commons by Lord Palmerston. Surmises were affent that he was assessinated, but it is thought that he died of appoplexy, after an attack of influenza; his illness was known in England before the news of his death was received. A alight rise in the funds; the offect of the news of his death, of course, had not transpired,

We are indebted to Mr. Gifford of Kinaley's Express for last evening's Bosion papers.

ed upon to announce the death of Mr. James Brown, of the firm of Little, Brown & Co., of this city. He died at his residence in Cambridge, on Saturday night after a brief illness. The intelligence of his decease will earry serrow to many bearts. He was extensively known and esteemed as a man of business, and he was unloved by a large circle of personal friends He was eminently qualified for his vocation as a book publisher, and his good judgment und pure taste have contributed to place the extensive house of which he was a member in the very first rank. He was entorprising in the best sense, and assiduous always to raise the standard of his profession to the highest point of excellence. He had cultivated a taste for the beautiful as well as the useful; and no publisher has done more than he has to promote the issue of good books, in a tasteful and elegant form. In this respect he has been a benefactor to the community, and his death will be a public loss. To his superior qualities as a business man he added many excellencies of private character, which will cause his departure to be deeply mourned. -Bost. Trap.

NEBRASEA.—The Council Bluffs Chron otype of the 21st ult., announces the arrival in that city on the 17th, of Hon. Mark W. Izard and his son. The Chronotype says "It was with great rejoicing that the people of Nebraska learned of his appointment and he will be received by the people of the Perritory with unfeigned pleasure, for thes are expecting to find a man of honest pur pose, and firm resolution, and one that i not to be bought up or sold, by town proprictors. Under the existing aspect of affairs if Gov. Izard is found equal to the ardnor and complicated duties devolving upon him he will be intitled to, and receive, the lasting gratitude of all who feel an interest in the prospective advancement of the Territory Although differing from us politically, wi muy be permitted to express the belief the he will command the respect of all parties by taking a firm and independent course regardless of the course pursued by his predecessor, and free from the influence of bribery, and the abject and fawning syco phancy of real or presented friends.

The Governorship of Nebrasku has been in corrupt hands long enough, and we now hope that the Territory will be favored with a man worthy the name of Governor, and one who in his public capacity will prove a credit to the Territory, and one, too, that will discharge the responsible duties of that office with honor to himself, and to the antisfaction of all the people of the Territory.

THE MAMMOTH STEAMER.-A recent number of the Edinburg Journal gives a detailed account of the immense from steamship now building upon the Clyde, the completion of which will signatize an era in naval architecture. The bull of this ship will be finished the coming summer, and her machinery is in process of rapid construction. She is 680 feet long, 85 feet wide at her greatest breadth of beam, and 60 feet depth in the hold, and she will measure from 22,000 to 25,000 tons. She will be furnished with both paddle wheels and screw propeller, the former of a nominal power of 1,000 horses, the latter of 1,600 horses. The four cylinders in which the pistons are to work are the largest in the world; each of them weight 28 tons. The engines when erected and put together, will be upwards of fifty feet high, and the weight of the machinery is estimated at 3000 tons. The structure of the vessel is novel, being cellular. Two tight iron partitions run the entire length, while there will be ten partitions entirely across her, and four decks; the hull will then consist of 120 large rooms with water tight sides. Then three feet outside the hull is an outer hull extending above the water line. The strength of this form of structure is estimated as if entirely solid iron. The cost of this ship is set down as likely to exceed two millions of dollars .-She will carry several thousand tons of coal and merchandise, and will easily accommedate 1,600 passengers. Her draft of water will be small, not exceeding 20 feet when fully loaded. She is to have five or six maste and five funnels, and her ordinary speed is expected to be 18 or 20 miles an hour. She is intended for the Australian trade, and her owners expect she will make the voyage from England to Australia in 30 days, and return by way of Cape Horn in 30 days more, thus making the circuit of the globe in two months. There will be it is said, 10,000 tons of iron used in the construction of the hull. : 1

The little iron-steamer Mohawk was lying in St. Clair river a few days since, surrounded by ice and immovable. It oscurred to her captain that he could rescue the craft from her icy chains by blowing up the frozen mass with gunpowder. Accordingly he prepared his torpedo by filling a bottle with gunpowder, attaching a long piece of water-proof fuse, and sinking the contrivance through a hole in the ice. All being prepared, the gellant engineer fired his train, and retired a proper distance to await the result. Now, every body who has seen the safely-fuse used knows that it hurns quite slowly under water, though as quick as powder in the open air. The explosion not following immediatoly uncorabe anxious, stepped forward, and applied his nose to the hole in the ice, and wlook ye what befel." There was a rumbling explusion; icu, water, captain, apray uscended in a halo of glory towards the zenith. The captain, having "gone up like a ruck et," followed out the metaphor, and "came down like the stick," fortunately floating like it, and struck out for abore. When it was discovered that he was not injured, the crowd who had witnessed his pyrotechnics gave three cheers for the cuptain and his peturd, which the former gracefully acknowledged .- Detroit paper.

Our Light illouse system costs us near two millious of dollars, a year. Unlike most commercial nations, we give to the navigattion of the whole world the advantage of this great expenditure. The Boston Daily Advertiser :-

"Great Britain, an is well known, levies a tax'on vessels arriving at her ports, to defray the expense of maintaining her house, even in case where the vessels may not have seen the lights for the alleged use of which they are obliged to pay. Our fellow citizens Mr. Lawrence, when he was minister at the Court of St. James, called the attention of the British government to the subject, and efiect a remission of the light dues, but without success. Most other nations with the exception of the United States, do the same. It ought to be placed to our credit in the general charge of greedy love for the "almighty dollar" under which the country labors, that the commercial world is allowed the enjoyment of our mimerous light houses without charge or tax of any kind,'

Father Mathew .-- A letter from this dis-Fatter state.—A tetter from this distinguished advocate of total abstineane from intoxicating drinks, dated Funchai, Madiera, Innuary 22, addressed to Dr. Huyden, of Dublin, speaks hopefully of at least his partial restoration from the paraly-sis with which he has been afflicted. He sis with which he has been amount, says that "under the influence of the genial climate of the island his paralyzed limbs are much improved," and he thus concludes his letter :

The only wish I have for improved The only wish I have for improved health is that it may enable me to resume my labors, for the few remaining years of my life, in the sacred enuse of temperature. Should it be the merciful will of the great God not to restore my health, I forvently party that the Almighty may, in his good-most call my to himself, that I may not be ness, call mu to himself, that I may not be a burden to my friends, and in particular to you, dearest Dr. Hayden, my great and only beneficiar. only benefactor. It is you alone who rescued me from wretchedness and almost

Later from Europe

The U. S. mail steamer Pacific at Liverpool at noon on Friday the voyage having been protracted tremely severe weather. On howard trip the Pacific was detained erport until 8 o'clock on the most Tuesday the 27th, and arrived o clock this morning, in 14 days.

The muil steamer Union, fro York, arrived off Cowes, at 3 o'clos noon of Monday, 26th—all well.

The Africa and Sarah Sands arrived.

GREAT BRITAIN.

The Palmerston ministry with days from its formation had fallen tos The Chancellor of the Excheque Home Secretary and chief lord of a miralty having resigned.

The estensible cause of their resign was the success of Mr. Roebuck's for a committee to enquire into the management of the war.

It was well understood that, beside cause specified, there were points of vate disagreement which rendered possible for the members of the Cabi act together.

Mr. Roebuck and his supporters ocured their committee, and rumor they will not rest satisfied without the peachment of "certain parties," mea Lord Ragian and one or two more o ex ministers.

Palmersion has found great troul remodelling his cabinet, and even ye reconstruction is not complete. Lord J Russell has taken the colonial secreti ship; in the meantime he completes mission to Vienna,

It is noticeable that in the parliament explanations, the members of the Gove ment express hopes-confident hope that the pending negotiations will lead an honorable peace.

Nevertheless none of the nations relax their war activity.

The Emperor of the French seems termined to proceed to the Crimea, to in person, what is going on; and no dot would, if he could, time his visit so as be present at the fall of Sebastonol.

Russia has declared war on Sardinia. is stated,-but on the faith of obscure cerespondence,—that Tuscany has joined to Western alliance. Naples has not.

Affairs before Sebastopol remain a changed. A battle has been fought Eupatoria.

On the 17th, Gen. Liprendi, with a fords about equal to, or perhaps a few thousand superior to the Turks, attacked them, and after four hours firing retired beyond the range of the shells from the English ships.

There is nothing whatever new from the Danube. Lord Bagian is said to have resigned, to

void recall. The Earl of Lucan and some other offi-

eers have been invited to resign, Very inclement wenther had caused suf-

ring among the poor in England. Riots had occurred at Liverpool and

London. A change for the better was apparent

within the past few duys.

Orium Eating .-- A New York page says-"Among the evil practices abroad in this community, opium eaters deserves to be mentioned, both on account of its extent, which is much greater than is generally supposed, and its pernicious influence. We happened to know the other day, of a drug store in a back street, that had six regular opium customers; and upon further inquiry, we found that nearly all the second class drug dealers had more or less of this sort of customers, who are females, almost without exception. Persons addicted to the habitual use of cither opium or lauda num endeavor to avoid notice by patronizing small shops, and purchasing such insignificant quantities at a number of differout places, as to avoid anapicion. The habit is most commonly formed during a period of illness, (as the dray, at first, is very offensive to the taste) and, by not being ubandoned on recovery, becomes strengthened by indulgence. It produces dreamy sensation, serving to release the victim from the pressure of ordinary cares and perplexities, and affords an artificial refuge for which unaided nature does not provide. The subjects of this vice are noticeable from the dull, bleary aspect of their countenances, sallow complexion, and hag-gard frames. The practice should be universally frowned upon and rejudiated,"

COL. BERTON'S TURNEL .- THE HIGHEST is the World,-According to the report of the topographical engineers assigned to the survey of Colone! Benton's great Central Pacific route, an iron road by that route will, for many hundred miles, be the loftlest in the world, and it will have a tunnel at a higher elevation than any other tunnel, excavated or projected, on the face of the earth. This tunnel will strike through one of the depressions in the backbone of the Western mountains, at nn altitude of 9,540 feet. Mount Washington, in New Hampshire, is considered a giantthe Alleghanies are regarded as a grand chain of mountains; but put the Alleghanies on the top of Mount Washington, and despair, and bid me hope once more. Your the highest of the Egyptian pyramids on exertions have been indefatigable to extrithe highest of the Egyptian pyramids on cate me from inexpressible agony of mind. road tunnel will still evertop them all.

BY TELEGRAPH.

CONCORD, N. H., Tue-day March 13. In Meradith village, this forenoon, while citizens were balloting for Aloderator in the new town Hall, the floor fell in, precipitating about 300 people about 18 teet upen sione and publish beneath. George Clark, John O. M. Mead, John Leavitt, Hiram Plummer, R. C. Tuttle, and Thomas Eastman were so budly injured that slight hopes were entertained of their recovery.---Forty-six others were taken from the ruins, many of them with broken limbs and other serious injuries. Two persons were reported dead when the train left.

NOT ONE OF HIS KIN TO BURY HIM, -MI-Samuel Underhill died at the house of Mr. A. L. Walker, in this city, Saturday night, the 3d inst. He had lived her long and was well known. He was poor, not competent to do much work on account of disappointment in love, years ago. He had been sick some three weeks, and Mr. Wal ker had the best care taken of him, without pay, or expectation of pay. He had him laid out well and a coffin made for him. It was Mr. Underhill's wish to be burried in Chester where his relatives live. So Sunday Mr. Walker had the corpse carried with one sleigh, while he went shead with another to notify the friends. He went to John Underhill, a brother, a man of some property. After some consultation they thought they would not bury him, as they might render them liable for expenses of his sickness. They were assured that was not the case. Still they refused.

When the corpse came Mr. Walker said he would go to the first Selectman who lived same three miles further on. In course of a mile they came to the burying ground, and concluded it was best for the carriage with the corpse to remain there while Mr. Walker went on. Near by was the house of John Calef, and he stopped to inquire the way, and made known his business. Mr. Calef and wife knew the deceased, and said that they would see to his burial in the ground with his kindred. The best room was assigned for the corpse, and the remains were decently interred. Too much praise cannot be bestowed upon Mr. Walker, Mr. Calef and wife. But of the brother we have not words to express our contempt.-- | Manchester, N. H. Mirror.

In consequence of the late severe snow storm at the East, the great sale of the real and personal property of Daniel Websier, at Marshfield, has been postponed until the 28th of March.

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. The soaps are presented to the public with the fullest confidence in their superiority and utility. A fur trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all i ask. These waps do the work of the Laundry in the best manner in cold water, either lard or soit, or call, dispensing entirely with boiling, pounding, weating machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these scaps is to soften the clothes and loosen the hold of the dirt, without

injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap treely a all soiled spots, make a strong sods in water, sofficient to cover, sonk in few hours, or all night it convenient, when with a common hand rubbing and therough rinsing, they will be perfectly clean and beautifully bleached.

FARE between Boston anionteni, \$7,00 in Portlandi is \$4,00 S. CORSER, Superintendent Atlantic and Lawrence Rail Road.

they will be percenty cann am some bleached. Cahenes and other colored articles, wash without anaking and rinse. Wookens—Wash in wurm auds (to prevent shrinking) and rinse. String seds and time. String seds and time. To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the roap on freely, sook some time in strong suds, rub out and riuse. Ink spots and steins, use full strength, sook, and wash in hot water.

hot water.
Gilding and Mishogany.—Wash in weak sads, rab with silk cloth and rinse. Paint, wash in strong suds.
For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sake wholesale and retail, by C. G. HANDY.

Captain Jews, willteave Fall River every Thesabay, Furney, and Saturday evenings on the arrival of the stabloat trainofears from Boston for New York, v. FOR NEURALGIA AND RHEUMATISM. BOCT, TRIP?
WHO has devited many years to the restment of Swenegia and Rheumatism, has sucreted in discovering a new remety, which in the most arvered will as midder easies has proved in infallible remedy, and has fully met the approbation of caninent medical men, many of whose testimony be had in his possession. The mountains all miners when invalidous attacks upon the head, face, shoulders, lock, loins, knees, feet, hands, &c., producing pulpitation, fainting, distortion and celoranty, have from all ages buffled the skill of comment practitioners, nor has it been possible at any time to correct the vicinate state of the fluids by any outward application, such, as pain kilners, olitiments, limments, &c., but on all cases where a cure has been performed, it has been done with afkaline medicines used intervally; all others giving but partial telef.

DUGT, TRIPP has no remedy that cares all ills that flesh is heir to, lint for the above complaints he leels safe in saying that within the last four years he has out known a single case where it has not produced.

IMMEDIATE RELIEF, and a permanent care. Whoever nees it for acute, chronic, inflamatory or mercurial Rheumatism or Neuralga in any part of the system, in any degree of severity, or for pains of camers, in any degree of severity, or for pains of camers in the money will be retunned.

This remedy may be abtained of Dr. Tripp, No. 189 Union street, New Bedford, Mass., or will be sent to any part of the country by express.

All orders should be addressed to Dr. T., box 421 New teelford.

Jyzo Willishar Wharf.
